Bookworm Buzz

Spring is the perfect time for books about the natural world. **The Fairy Garden** is a delightful tale of Mimi and her longing for a fairy garden.

She works hard to make her garden 'perfect' but with the help of some very special friends she discovers how to make her garden truly perfect.

Great environmental message and all Ivy Kids books are printed in the UK on recycled paper!

Plant Life Cycles

Simply beautiful life cycle of a sunflower through gorgeous, warm illustrations. The detail in the images is stunning. A counting book with written numbers.

An Usborne Beginners book. Illustrations and real images are used alongside concise information on how flowers grow. Book band level - white.

8+

Superb book, unique in style. The images are illustrated rather than real but are fun, exciting and intriguing. Packed full of fascinating information presented in an original format.

by Michael Holland & Philip Giordano

Destined to die young. Savannah, one of the Hella girls is cursed. Can she survive?

We all see different beauties and colours in the world. Ideal to start a creative project.

YA

Magazines

Operation Ouch! is made for the inquisitive, fact loving, answer seekers. Info, activities and cool experiments galore. Ideal for science explorers.

Covering biology topics related to the human body; how it works and exploring the medicines and technology that help us. Recommended for 8-12 year olds.

9+

A bleak boarding school setting opens into a magical, woodland world of friendship, perilous adventure and a talking cat! A brilliant must read.
